You can get into the detail in the press release below. 3 11 This version brings Windows 10 support, a couple of new controllers to support and some other bits and bobs.

Cross DJ continues it's march towards a complete desktop DJ software package with the latest version of Cross DJ: 3.. Midi Mapping Cross DjThe big players might hog the headlines these days, but we need to remember that there are other alternatives out there that offer some advantages.. We do our best here at DJWORX to cover as much about the alternatives to Pioneer, Native Instruments, Atomix and Serato, even including the open source ones! Easily the company that keeps our inbox busiest with updates is Mixvibes, makers of Cross DJ for Mac/Windows, iOS and Android.
